Even a Trickle Makes a Difference

Over the last few weeks, we have seen a return -- people we have not seen at Traditional since the outbreak of Covid-19 have returned to Shabbat services. It may be just a trickle, but they have made a visual difference and their voices have noticeably enhanced our singing of popular Shabbat melodies. And with kiddushes in our lobby and on our plaza, though with individually packaged products (including birthday cake!), a return has begun!

Return is a major theme in Jewish history and identity. Psalm 126, which we chant before **Birkat ha-Mazon** on Shabbat and holydays, longs for the return of exiles back to our homeland. Other prayers, recited every day, pray for the ingathering of our people from the four corners of the earth. The composer of Psalm 126, however, was not a minimalist -- he did not want a trickle, but a rush, like the flash-floods called “**afikim**” that would periodically appear in arid areas. “**Shuvah Hashem et sh’viteinu ka-afikim ba-Negev** -- Bring back our exiles, Lord, like streams on dry land.” (Koren-Sacks translation)

Many estranged by Covid-19 long for return, a return to their community of Jews whom they regularly saw on Shabbat, in our sanctuary, and with whom they could shmooze after (and sometimes during) our services.

Return is also a religious theme -- “**Hashiveinu Hashem eilecha v-nashuvah; chadesh yameinu k-kedem**” is the last line

as we return the Sefer Torah to the **aron kodesh**. Return us, Hashem, to You, and we will return; renew our days as of old.”

A year ago, I regularly published the numbers, but then stopped. Now, perhaps we need a reminder:

This terrible pandemic has stricken 174 million people world-wide, killing a staggering 3.74 million people. In the United States, there are 34,227,534 reported cases, killing 612,710 -- more than ten times the fatalities in one year than in more than a decade of American soldiers in Vietnam. In Israel there were 839,585 cases, resulting in the death of 6,418 people. Large numbers are hard to process, so we are overwhelmed. And beyond the deaths, businesses (and lives) have been crushed, children lost a year of school, and estrangement has inflicted great pain.

Estrangement is painful, but it does not have to overwhelm us. In tough times, in good times, and everything in between, when we are connected to God and to one another, we are never alone. Re-joining us at Shabbat services is an opportunity to rediscover those eternal Torah messages, renewed by our words and melodies, in a sacred place, seeing each other, noshing together.

I’d prefer a rush, but a trickle -- that’s good, too.

It is exciting to be writing this at a time that we are starting to return to normal. No one knows what the future will hold, but for now almost everyone I know is vaccinated, cases in the area are decreasing, and life appears to be going on.

Ann and I have been among those who have been willing for some time to go out to non-crowded places, wearing masks and maintaining social distancing. This last weekend we traveled to Kansas City to meet our son and daughter-in-law who live in Texas and are taking an RV trip North and West. We went one day to Worlds of Fun, wore our masks in crowded areas and felt relatively safe.

I hope that most of you will feel safe enough to start to come back to Traditional for services and other events. Our Task Force has been hard at work looking at CDC guidelines and making reopening decisions that we believe will keep everyone safe and allow Traditional to offer our full range of offerings. Our ventilation system is going full blast (bring a sweater) and we have room to spread out so that you can stay as far away from others as you wish (I guess staying home is the extreme, but that's not what I had in mind).

If anybody needs transportation to get to shul, please contact Marian or me and we will arrange it. I hope that nobody stays away from services or events because of transportation problems.

Congratulations to Elaine and Eric, Shelah, and Marla, Pavel and Andy on their upcoming simchas this summer. I wish much happiness to them and their families.

Please remember that the Annual Congregational Meeting will be on Thursday, July 8, 2021 @7:30 PM preceding the Board meeting. Our nominating committee is putting the final touches on the slate, and it will be sent to you in the next few days. We still have a few openings for Members-at-Large. Being part of the board is enjoyable, not much work (with a couple of exceptions) and extremely helpful to Traditional. I would be happy to talk with you about joining the Board.

Stay safe. I hope to see you soon.

Ken

From Your Exec Director
tradcong@sbcglobal.net

It's an exciting time, for the world and for Traditional Congregation! Things are opening up, we are seeing smiles again, there are places to go and people to see - and most importantly, life is returning to normal at Traditional!

As you've been notified, masks are no longer required in our building for those who are fully vaccinated (of course, anyone who wishes to wear a mask is welcome to do so). We are no longer checking temps before Shabbat services (and as always, we advise anyone who is not feeling well to stay home). And kiddush is back, albeit in a modified format for the time being.

We hope that those of you who've been staying away will soon feel comfortable enough to join us again. We have a stalwart group who've been regularly attending services since we re-opened 10 months ago, back when the number of COVID cases was much higher and before vaccines were available. B"H no one became ill from being here! Now that a large percentage of our attendees are fully vaccinated, and the number of COVID cases reported in the county is down significantly, we encourage you to consider coming back. There is still plenty of room to spread out, Shabbat services for the time being are still abbreviated (9:30 - 11:45 AM), and we would love to see you and welcome you back!

Behind the scenes, we are creating some exciting upcoming programs, both virtual and in-person, and of course, plans for High Holyday services are underway. You'll be hearing more about all of this in the very near future.

In the meantime, we are recruiting Kitchen Angels (women and men are welcome) to help prepare kiddush once we are back in full swing - **if you can help out in any capacity--shopping, preparing, serving or cleaning up--whether once a week or once a month, please let me know (314-576-5230 or tradcong@sbcglobal.net).**

Stay safe, stay healthy, and come back soon - we miss you!!

Barbara's Thank You for Help with the 2021 Florence Gaponoff Mother's Day Mitzvah Project

A heartfelt thank you to our Traditional Family for all your donations for our 30th year of providing Mother's Day gift bags to women's shelters. With your help, we were able to meet our goal of assembling 150 bags that went to five shelters. We followed COVID precautions for both Traditional and the shelters.

Our assembly line on Sunday was extra smooth this year thanks to **Angela Tannenbaum** in the office and other volunteers who sorted all the donations throughout the year in preparation, and to **Jackie Webster** for setting up the assembly room. A huge thanks goes to **Mindy Strauss** for all her help and support including sorting and preparing the donated jewelry and volunteering on her birthday! Another big thanks goes to **Elaine Farkas** for printing all the gift tags and adding ribbons so they were ready to attach to the gift bags.

Thank you to everyone who volunteered to assemble bags:

Marty Bell	Mimi Levy
Elizabeth Berson	Marcia Lisker
Shelah Feldman	Joyce Olshan
Nikki Goldstein	Anat Reschke
Marian Gordon	Mindy Strauss
Marty Levy	Traude Wilson

This year due to changes in availability, we fell short of some basic items. Luckily, we were able to purchase these items and add them to the bags thanks to the generous donations from:

Gayle & David Berwald	Marcia & Mauricio Lisker
Susan & Stuart Boxerman	Rafi Rabinoff
Anne & Chris Brown	Louise & Mel Saltzman
Jean & Stanley Estrin	Bettina & Mel Weinberg
Sue Inman	Traude & Gary Wilson

Thank you with extra hugs to **Mindy Strauss**, **Claire Hack**, and **Marian Gordon** for their tremendous contributions to the project's success.

Please start collecting now for next Mother's Day. Remind everyone you know to collect as well. This project cannot happen without your donations! We are able to store your donations at the shul – so you can begin dropping them off now! Once again, **thank you to everyone** who helped make this mitzvah of giving to others a success. We could not have done it without **YOU!**

Thank you all for a fantastic job! Hope all the Moms had a happy Mother's Day!

How are you doing? Hope you are feeling well. I'm fine thank G-d.

I will start by informing you that I am doing well in school. I will have two more semesters to study for a bachelor's degree and I have already enrolled for a master's degree at Bar Ilan, a master's degree in political science and international relations, and I have a feeling I will enjoy my studies and gain knowledge.

Recently there has been a mess in my country because of Gaza who did not stop shooting missiles, you must have seen in the news, it was shocking, I barely was able to sleep and a lot of people were mentally and physically injured.

In addition to what the world has written about us- about Israel trying to protect its citizens and the state, it was very unfortunate.

There is now a ceasefire, but it is possible and we don't know when Gaza will start a war again.

Besides I'm fine G-d willing, I hope it's okay I updated you on this issue, I felt the need to share.

Anyway thank you very much; your help is very helpful to me.

How are you? How are you dealing with the pandemic? I hope you are well and already able to return to a more normal life.

Here in Israel, we had two difficult weeks during “Operation Guardian of the Walls” and all the turmoil in different cities of the country. These were tense days and nights when alarms were heard, even here in the center of the country, and rockets even fell near us. Naturally, we were very concerned for relatives in the south of the country and in general, concerned about the situation throughout the country.

After the ceasefire went into effect we had a calm weekend, thank G-d, and we are now trying to get back to our normal routine, and hoping for better and calmer days ahead.

Just a week ago, I completed my clinical experience at Ichilov Hospital. These were three very enjoyable and instructive months. I met diverse patients and delivered a lot of individual and group therapies. In particular, I had a 17 year old patient who is dealing with a functional disorder, and I accompanied her throughout this period. It was challenging to learn a difficult diagnosis that we had not studied about previously, to adapt treatment methods, and to build a good relationship with the patient.

This training taught me a lot and exposed me to various means of treatment and technologies available in Ichilov Hospital. I also had the opportunity to experience additional Occupational Therapy roles, to participate in team meetings with the other therapists in the ward, to report on a patient, and in the last week I delivered a short presentation to the entire staff.

It was a very intense period that required a lot of effort, a lot of independent work in front of different patients and I had to deal with different challenges that arose. But in the end it was a satisfying experience that gave me a lot of tools and practical knowledge to move ahead.

Today we went back to school. Because of the security situation the last two weeks, there wasn't much time to rest and enjoy the short time off. But I think it's been good to return to a normal routine. In addition, thanks to a decline of coronavirus infections in the country, it's now possible to conduct some courses in-person on campus and it is definitely a positive and welcome change to get off of zoom and meet face to face some of the time.

Studies are expected to continue until the end of June. During this time, we will also start conducting our research seminar work, and then the exam period will begin. There is a lot to do and to accomplish in the coming month, but this is the final effort that leads us to the end of the semester. ☺

I will update you at the end of the semester.

I hope you are well, and I send greetings to everyone,

Hagit Zerihon

A Text From Bezu

June 3, 2021

How are you? How are your families?

I wanted to let you know that next week I am starting internship interviews.

It's both a stressful and an exciting time. I hope it will all go well.

How is the vaccine rate in the US? Have you been vaccinated?

How are you? I hope you are well. My family and I feel good and happy.

Today as you know we are in a complex period, we are currently on alert due to the security situation. Unfortunately, I will not be able to expand on my tasks in the current period for the sake of information security, but what I can say is that my team supports all aspects of the IDF in the budgetary aspect.

I celebrated Passover at the base and not with family, I hope we can get back to routine soon without civilians or soldiers getting hurt.

As for the master's degree I am currently in my final semester, I am doing my best to accomplish the tasks and papers required of me.

Thanks,

Eliyahu Samuel
